Students achieve precision, technical proficiency, core stability, and a fluent use of the dance movement vocabulary. Attention to communication and projection leads to an assured musical and artistic performance. Each routine exercise is more demanding and is designed to strengthen and build the correct muscles in the feet, legs and upper body.

*Please note, RAD Grades 1-5 are not equivalent to school grades, but more appropriately reflect a student's technical ability. All students at this level participate in both our Winter & Spring Showcases.*

Do you want to be a part of a team, challenge yourself to reach new heights and gain performing experience at dance competitions? Of course you do! We will be auditioning for our SDA Company for the 2016/17 Season! If your dancer will be entering Grade 1 and higher, they are eligible to audition. Audition is required of all students, even if you were a member of SDA Company this past season. Auditions: August 20. When students dance in the SDA Company, it offers them a chance to refine their dancing technique and have the wonderful experience of dancing beyond the classroom in competitions and workshops throughout the year. If you are interested in this wonderful opportunity for your child, and have questions, please ask, we want to hear from you!
